How to find us: The Globe Theatre Templeton Studio Cabaret is located on the second floor of the Globe Theatre building located in downtown Regina.

Loading Access

The Templeton Studio Cabaret is located on the second floor of the Globe Theatre building and may be accessed through the main glass doors or through the double door in the mall. There is no freight elevator. Elevator size is 4'8" X 5' X 7' tall. Any piece that is bigger than those dimensions must be taken up the stairs. Large pieces can come in through the rolling metal door on the main floor. There is no loading dock. Street parking is available or there are a variety of parking lots located all throughout the downtown core. Street parking is \$2/hour with a 2 hour max. Most parking lots are \$18/day.

STAGE INFORMATION

Stage Floor

The Dimensions of the space are 44'12" to 50' wide and 33'5" long. There are two pillars situated in the room that leads to sight line issues. Please refer to the ground plan.

The stage floor is masonite painted matte black. **The floor is not sprung.** The floor may be painted at a cost of paint and labour for restore, please ask the Director of Production for details. **You may NOT screw or nail into the floor or walls*.**

There are no trap doors in this theatre.

* There are some creative solutions for this problem, the use of removable 3M hooks or setting up Unistrut frames around any pieces that might need to be screwed down.

Seating

The occupancy rating for this space is 145 people **including** cast and crew

The seating consists of risers and chairs. There are 12 risers (4' X 8') with kick rails, up to 75 chairs, railings and assorted legs in 7" increments.

***** Please note certain staging arrangements may limit seating numbers**

Rigging

***** Please note that all rigging must be approved by the Director of Production**

The Templeton Studio grid is rated for 20lbs per linear foot, **static load ONLY.** All needs must be accommodated within the bounds of theatrical and Globe Theatre's Health and Safety practices/policy.

The grid height is 12' 3" and is consistent throughout the space. Please note that the duct work is **BELOW** the lighting grid. The height of the duct work is 10'4".

There are two ladders for use in the space, both 8' tall

Globe Theatre Health and Safety Policies must be adhered to at all times

There is a small selection of masking drapery available for your show which will be hung by Globe Staff. It consists of the following:

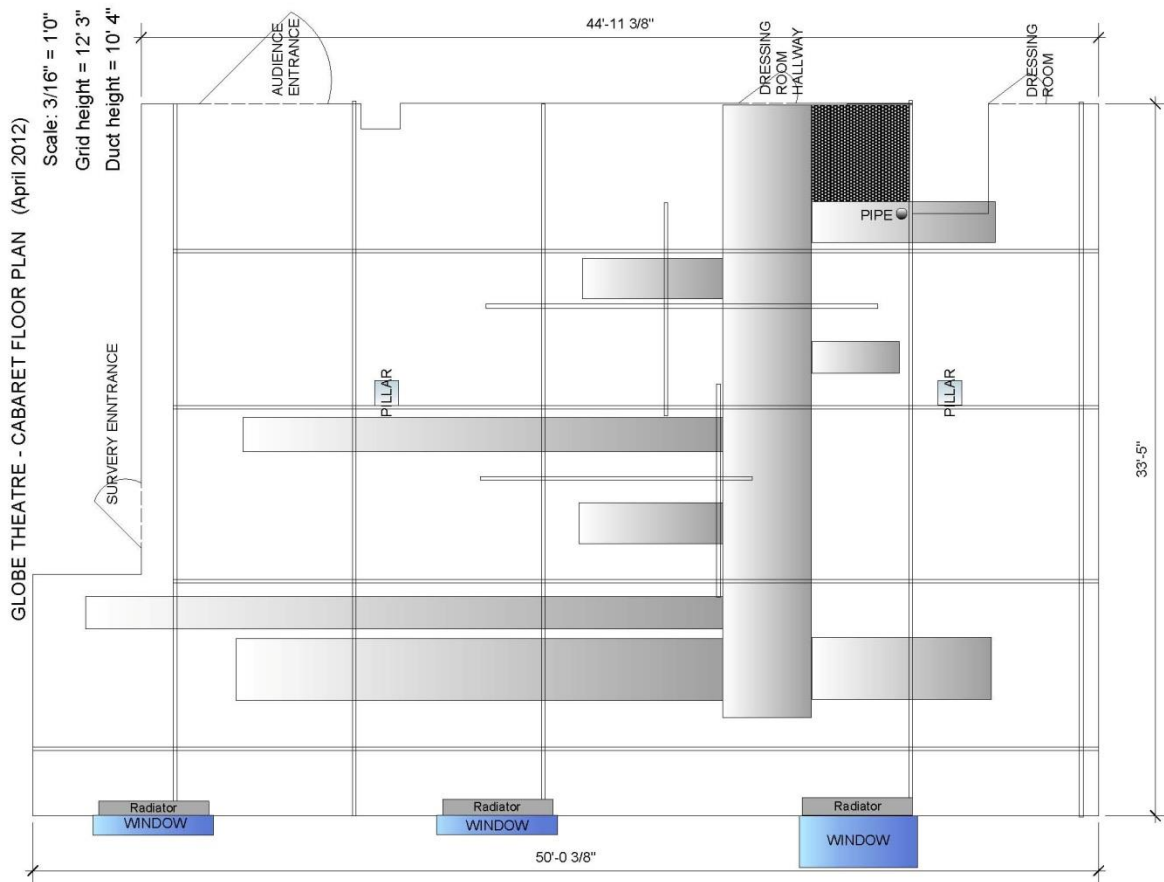

- 6 - 12' by 7' wide black panels

Dressing Rooms

The Templeton Studio Cabaret has one devoted dressing room. The needs of the show will dictate on which dressing room will be available. There are two dressing rooms on the Cabaret side. One can hold up to 4 people and one can hold up to 6 to 8 people. The green room area is shared with the Mainstage. There are both Male and Female bathrooms with showers that are also shared with the Mainstage.

You do have access to a washer and dryer. Please see Studio Technician for more details about getting access to these facilities.

Stage Drawing
