THE GLORIES OF GLORIA REVUE

Created by Mooky McGuinty and Cal McCrystal | February 16th – March 6th, 2022

February 9th, 2022 - Regina, Saskatchewan — Globe Theatre proudly presents *The Glories of Gloria Revue*, created by Mooky McGuinty & Cal McCrystal. The show runs from February 16th until March 6th, 2022 at the Conexus Arts Centre in the Shumiatcher Room.

The Glories of Gloria Revue follows the story of Gloria Rivard, played by Mooky McGuinty. Gloria wants nothing more than to be a star and performing in her own Revue is her dream; but on the prairies such shows are rare. Gloria decides to take matters into her own hands and creates a Broadway extravaganza – a show full of music, dance, sketches, and eclectic entertainment. Watch as Gloria attempts to create a performance meant for a cast of thousands, by herself.

Mooky was a co-creator and principal clown of Cirque du Soleil’s hit show, *Varekai*. She delighted crowds with her unique brand of slapstick in over 1000 shows throughout North America and Europe including Cirque du Soleil’s debut in Russia. She was a regular sight in London’s Olivier Award winning cabaret, *La Soiree* and was recently the very first solo female clown of Europe’s most prestigious Royal Carré Winter Circus in Amsterdam. She has charmed Gorbachev, Liza Minnelli, and even received a kiss from Desmond Tutu. A master of physical comedy, puppetry, piano, and performance, Mooky is one of the funniest ladies in the international circuit today; and she lives right here in Regina.

Co-creator Cal McCrystal, was the physical comedy director of *One Man, Two Guvnors*, and physical comedy consultant of *Paddington* and *Paddington 2*. Together, Mooky and Cal created a charming and hilarious show meant for the whole family.
